General marking principles for Higher French Reading

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

(a) Marks for each candidate response must always be assigned in line with these general marking principles and the detailed marking instructions for this assessment.

(b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.

(c) Award a mark to each answer. Marks are not transferable between questions.

(d) The marks available in this paper are as follows:

- **(i)** The first set of questions (worth 18 marks in total) requires candidates to provide answers based on comprehension of information from the text. The marks available for each question generally range between 1-3 marks.
- **(ii)** The penultimate question is the overall purpose question. For this question candidates must draw meaning from their overall understanding of the text. There is a maximum of 2 marks available for reference to the text and detailed comment. Pegged marks (2/1/0) and associated commentary are available with further guidance in the appropriate section of the marking instructions for Reading which forms part of this document.
- **(iii)** The last question is the translation. For this question candidates must translate the underlined section of the text. The section for translation will be divided into five sense units. For each sense unit, 2, 1 or 0 marks will be awarded: 2 marks for a full translation, 1 for partial translation, and 0 for an unsuccessful attempt.

(e) We use the term "or any other acceptable answer" to allow for the possible variation in candidate responses. Credit should be given according to the accuracy and relevance of candidate's answers. Candidates may be awarded marks where the answer is accurate but expressed in their own words.
