General marking principles for Higher Music

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

(a) Marks for each candidate response must always be assigned in line with these General Marking Principles and the Detailed Marking Instructions for this assessment.

(b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.

(c) Do not accept any answer that is not in the marking instructions. However, use professional judgement when candidates' responses do not exactly match marking instructions but carry the same meaning, eg plagal cadence/IV–I, harmonics/harmonic, Impressionist/Impressionism, Irregular time signatures/Irregular metres,
3 / Waltz.
4

(d) Candidates are asked to tick one or more boxes in multiple choice questions. Accept a cross or any other sign which makes the candidate's intentions clear.

(e) Where a candidate has provided more than one answer for any question, mark all the answers and then deduct 1 mark for each ADDITIONAL answer. For example in question 7 where a candidate has provided more answers than required, eg by ticking six boxes instead of five, mark all the answers and then deduct 1 mark for each ADDITIONAL answer.
