General marking principles for Higher Spanish Listening

Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.

(a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.

(b) If a candidate response does not seem to be covered by either the principles or detailed marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.

(c) Award a mark to each answer. Marks are not transferable between questions and the answers for each question must come from the item.

(d) Award marks according to the accuracy and relevance of the candidate's answers. Award marks to candidates where the answer is accurate but expressed in their own words.
