Question Paper Finalised Marking Instructions

© Scottish Qualifications Authority 2024

These marking instructions have been prepared by examination teams for use by SQA appointed markers when marking external course assessments.

The information in this document may be reproduced in support of SQA qualifications only on a non-commercial basis. If it is reproduced, SQA must be clearly acknowledged as the source. If it is to be reproduced for any other purpose, written permission must be obtained from permissions@sqa.org.uk.

General marking principles for Higher Accounting

Always apply these general principles. Use them in conjunction with the specific marking instructions, which identify the key features required in candidates' responses.

- (a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
- (b) If a candidate response does not seem to be covered by either the principles or specific marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.
- (c) Always follow through consequentiality subsequent to a calculative error and give credit for any errors in subsequent calculations or working.
- (d) Mark scored out or erased working which has not been replaced, where still legible. However, if the scored out or erased working has been replaced, mark only the work which has not been scored out.
- (e) For **describe** questions, candidates must make a number of relevant factual points, which may be characteristics and/or features, as appropriate to the question asked. These points may relate to a concept, process or situation. Candidates may provide a number of straightforward points or a smaller number of developed points, or a combination of these.

Up to the total mark allocation for this question

- award **1 mark** for each relevant factual point
 - award **1 mark** for any further development of a relevant point, including exemplification when appropriate
- (f) For **identify** questions, candidates must name a number of relevant items or facts. These must relate to the context of the question and do not need to be in any particular order.

Up to the total mark allocation for this question

- award **1 mark** for each relevant identification
- (g) For **outline** questions, candidates must make a number of brief statements appropriate to the question asked. These may include facts, features or characteristics

Up to the total mark allocation for this question

- award **1 mark** for each accurate statement

1. (a)	Production Budget for July to December Year 5 ✓									MAX MARK	5				
		July		August	September	October	November	December		ADDITIONAL GUIDANCE					
	Cash Sales	2,600		2,800	3,000	3,200	3,400	3,600	1	1 mark for heading and Cash and Credit Sales rows

Candidates must use £, % or times appropriately in order to gain second mark. If omitted or incorrect, DNA 2nd mark each time.											

4. (d) Describe 2 limitations of Ratio Analysis

It is difficult to find competitors of the exact same type and size to make valid comparisons.
The information is historical, so is not relevant to the current or future position.
Ratios do not take into account external factors.
